The Revolution Will Be Televised

Jeff Beck

The revolution will be televised,
you can watch it in HD,
and talk like a weekend warrior,
from the safety of your setteeThe graphics won't be as realistic,
as Grand Theft Auto Three,
guess that makes the wheel unwheelable,
but this shit is real babyGuess you better turn the volume down,
so you can't hear their plea,
suppose you better change the channel,
might put the children off their teaThe revolution will be televised,
you can choose to watch or not,
but if we all just talk from the safety of our sofas,
there won't be much revolution to watchI guess you better turn the volume down,
so you can't hear their plea,
suppose you better change the channel,
might put the children off their teaThe revolution, it will be televised,
you can choose to watch or not,
but if you all just talk from the safety of your sofas,
there won't be much revolution to watchThere won't be much of a revolution to watch
Ahhhh, there won't be much of a revolution to watch,
Ahhhh yeah, there won't be much of a revolution to watch,
...
