Warning Shots

Thievery Corporation

They try their best just to mash up the resistance

Warning shots and sirens from a distance

Riot gear and barricade for an instance

And the words from mi mouth, mi nuh response

Hollywood sending signals of destruction

Stereotype the ghetto youths as the bad man

Overcome the rough times and we grow strong

Step up in a life, now them want to shake we handWe are eternal, made of the creator

Wont fall to the soul-less devastators

Divide and conquer, and try to separate us

Up to this day, them still try fi rape us
