Made My World

Jaci Velasquez

I never thought of what I could be
Where I'd go
What I'd do
I never thought of what I should be
Until You
You came into my life
When I was all alone
You came down
And saved my soulChorus:
When I found my world was crashing
And I thought I'd lost my passion
You came and laid a hand
On this little girl
When I thought my dreams were fading
I looked up and saw You waiting
You reached Your hand down
And You made my world
I never thought of where I might be
If I turned away from You
I never thought of all I would need
Without You
You came down
When I was all alone
You came down
You came down
And saved my soul
