

# Gravity

## HUNGER

It could have been love  
It could have worked out  
You gave me your trust  
But it's gone now  
Got blood on my hands  
I wonder why I hope I should have been the one that made you safe  
'Cause we were never meant to fade away Holding on but I don't know why  
You would ever see me  
Cause I know know you not ready  
Crying out but I don't know why  
You would ever hear me  
Cause I know know you not ready You were my one  
It was so clear  
You gave me your trust  
But I stole it  
This is my fault  
I wonder why I hope I should have been the one that made you safe  
'Cause we were never meant to fade away Holding on but I don't know why  
You would ever see me  
'Cause I know know you not ready  
Crying out but I don't know why  
You would ever hear me  
'Cause I know know you not ready You are like gravity to me  
You just pull me in  
And no no apology will do  
I know we are through Holding on but I don't know why  
You would ever see me  
'Cause I know know you not ready  
Crying out but I don't know why  
You would ever hear me  
'Cause I know know you not ready
