

# Nothing To Lose

Casey Jones

Fuck it up  
I'm standing strong  
Living the words from this song  
No front, no fakes  
No fucking mistakes  
I'm never fading away  
Still believe in these words today  
My life my rules  
Nothing to lose  
I'll never step away from the edge  
The edge  
The edge that separates us  
I'll never break this  
Straight edge
