

# I Wanna Stay Alive With You

## Ocean Colour Scene

I'm not one to judge that much  
And anyway I just wanna get high on you  
But thirteen year old girls in hotels  
On the other side of the world  
Seems a little much for me Yeah, I wanna stay alive with you But they look you in the eye  
And anyway they'll always slip a smile at you  
But thirteen year old girls in rat-holes  
On the other side of the world  
They're gonna lie to you Yeah, I wanna stay alive with you Free runs in a town where the boys and girls  
Are settling down for the night  
To make up and make eyes at you Yeah, I wanna stay alive with you
