

Farther Down

Matthew Sweet

Into you so far our words go
So much clearer than you hear
Into you goes everything I know
No one else knows how I feel Farther down, I'm desperate for you
Where you never have to know
Farther down, I'm still without a clue
Just something, something takes my pain away Only chance can change my fortune
So I'm not sure why I try
As if I could swim the ocean
As if you could start to fly Farther down, I'm desperate for you
Where you never have to know
Farther down, I'm still without a clue
Just something, something takes my pain away Something takes my pain away
Something takes my pain away Farther down, I'm desperate for you
Where you never have to know
Farther down, I'm still without a clue
Just something, something takes my pain away Something takes my pain away
Something takes my pain away
Something takes my pain away
