

Eat Your Heart Out

OnCue

Yeah,
Here We go again,
We're not the same as we were back then.
Thought I told ya that we probably better off as friends,
To keep it, but I can't stand ya
i don't want to pretend, I don't know where to begin
I ain't really fucking with you but I love fucking you
That must be my problem, I was born with a dick, girl
Wrote some songs, [...]
Now I'm the fucking shit, girl
Used to be blood, no pyro(?) now it's all hit girl
Swear on everything, you don't need me
You're idea of a good weekend is PJ's, TV
I ain't creepin' but everytime we get back together I look in the mirror and I don't see me
That's a problem, that's a problem I got a lot of [...] I stay inside [...]
Don't need them for much,
I told you from the jump,
That I'm broke and all inside, baby
I don't like to front,
But my plan is to take the world over,
Sit on top and just stunt,
I ain't worried about them other guys, my hunch is that they enjoy it[Hook]
We should let this go, girl
I swear that you don't listen
Won't you take my word, yeah
I promise you're not missing out on anything
Except you trippin' and bitchin' at me, oh[Chorus]
Go and eat your heart out
Oh, go and eat your heart out
Go, go, go, go and eat your heart out
Go, go, go, go and eat your heart out, now
Go and eat your heart out, now[Verse 2]
You used to be the one who took the pain away
Kept it real with me, always set me straight
I used to hit it hard like an 808,
Now your life is Devia and gaining weight
God damn, wrong places
Used to walk around the crib like it was filled with hot sand, If I say a wrong statement
My stance is always sorry, but you won't take it,
Please, can you [...]

Girl, you filled with hatred
You don't even realize
You got a season pass to this dick, and you still ridin'
You prey and you ask,
Pick a bitch and you still fight it,
You swear you love me up and down and you stand by it,
I think you on auto pilot , honestly
Yeah, you boy taking over
Been plotting on this shit since I cut toys [...]
Oh, yeah, damn I'm a [...]
So give me a fucking rover and a [...]
Yeah, I'm good[Hook]
We should let this go, girl
I swear that you don't listen
Won't you take my word, yeah
I promise you're not missing out on anything
Except you trippin' and bitchin' at me, oh[Chorus]
Go and eat your heart out
Oh, go and eat your heart out
Go, go, go, go and eat your heart out
Go, go, go, go and eat your heart out, now
Go and eat your heart out, now
