

Baby

Warpaint

Don't you call anybody else baby,
'Cause I'm your baby still
You took a long time to make it
But I've never changed my mind
I've never tried to fake it
Never drew the line
Don't you call anybody else baby,
'Cause I'm your baby still
You took a long time to make it
But I've never changed my mind
You speak your fears
Thinking in circles
And checking word nears
Don't think
You live your life like a page
From the book of my fantasy
How I love you
You speak your fears
Thinking in circles
And checking word nears
Don't think
You live your life like a page
From the book of my fantasy
You speak your fears
Thinking in circles
And checking word nears
Don't think
You live your life like a page
From the book of my fantasy
You speak your fears
Thinking in circles
And checking word nears
Don't think
You live your life like a page
From the book of my fantasy
Don't you call anybody else baby
