Catch Me If You Can

Ana Johnsson

Too fast, too odious, too strong
Too slick, too hard to get along
Too weird, don't know where you belongToo much, too right up in your face
Too heavy, get off of my case
So sad I'll put you in you place
Get ready for thisKeep on running, catch me if you can
Keep on running, catch me if you canToo dizzy, too much junk TV
Too busy living through a screen
Don't ever question what you seeTotally, absolutely numb
Together till the job is done
What if tomorrow never comesAre you ready for this?Keep on running, catch me if you can
Keep on running, catch me if you canToo soon, too easy to give in
Just gotta trust what's within
So can you feel me crawling under your skin
So catch me if you canKeep on running, catch me if you can
Keep on running, catch me if you can
