

# Stop the Dams

## Gorillaz

When you're smoking tinfoil in the morning  
It's gonna be a cold day  
When you're keeping everything inside you  
It can only hurt you Unrelated sounds  
The sun will shine again  
You hold it in your hands This land is a young land let it stay that way  
It's pollution only turns it into something  
You don't want to see in the water  
A reflection of them that you receive You don't own the sun  
And the sun won't shine again  
So maybe you're in love  
With aluminium The cling and a clang  
Is the metal in my head when I walk  
I hear a sort of this tinging noise  
Cling clang, the cling clang So many things happen while walking  
The metal in my head clangs and clings as I walk  
Freaks my balance out, so the natural thought  
Is just clogged up, totally clogged up And we need to unplug these dams  
And make the the natural flow It sort of freaks me out  
We need to unplug the dams  
You cannot stop the natural flow of thought  
With a cling and a clang Wake me up again until  
We're aluminium  
You hold it in your hands The sun will shine again  
The sun will shine again  
The sun will shine again  
The sun will shine again  
The sun will shine again  
The sun will shine again
