# Fall Apart

## Satin Jackets

It's hunting me
It's killing me
I can't explain what you've done to me
Under my skin
In every breath
What was so strong hast gone and left
Everybody wanna know what's happening to me
They wanna get inside my head
They think it's such a mystery
How can I explain what I got nothing left to hide
Because I'm wearing all my pain and
Now you're looking deep inside
Ya pick up the pieces when I fall apart
You know how to please it when you break my heart
Try to walk away but it's just too hard
So I fall back
Fall back baby
You pick up the pieces when I fall apart
Boy how you tease me when you break my heart
Knew how to play me from the very start
So I fall back
Fall back baby
What you gave
You can't get back
It's so engraved
And it's more than that
What can I do
I'm twisted up
And only you can fix it up
Everybody wanna know about our history
And how you got me in your spell
And you brought me to my knees
How can I ask explain

There's nothing left to understand
'Cause baby that's the way it goes
Between a woman and man
Ya pick up the pieces when I fall apart
You know how to please it when you break my heart

Try to walk away but it's just too hard
So I fall back
Fall back baby
You pick up the pieces when I fall apart
Boy how you tease me when you break my heart
Knew how to play me from the very start
So I fall back
Fall back baby
And I know inside of me
There's longing to be free
So I don't know why
I fall apart for you baby
Listen up boy
I got something to say
Maybe you got me lost
Maybe I'll find my way
Got no excuses
I'm on the right track
I know it ain't over
I ain't looking back
Ya pick up the pieces when I fall apart
You know how to please it when you break my heart
Try to walk away but it's just too hard
So I fall back
Fall back baby
You pick up the pieces when I fall apart
Boy how you tease me when you break my heart
Knew how to play me from the very start
So I fall back
Fall back baby
