

One of You

George Strait

Last night, I had a dream, dreamt I had it all
I had, one truck, one car, one boat, one guitar
But all of these things wouldn't get me too far
If I didn't have one of you I work hard every day, to bring home all my pay
I got, one house, one yard, one dog who likes to bark
We'd be cold, living in the dark
If I didn't have one of you One of you is all I want and all I'll ever need
One of you is all it takes to make my life complete This is what I have, you can have it all
I got, one heart, one love, one dream I'm dreamin' of
Wouldn't have known what to give it all to
If I didn't have one of you One of you is all I want and all I'll ever need
One of you is all it takes to make my life complete This is what I have, you can have it all
I got, one heart, one love, one dream I'm dreamin' of
Wouldn't have known what to give it all to
If I didn't have one of you I wouldn't have known what to give it all to
If I didn't have one of you
