

Your Sweet Love

Al Jarreau

And when I thought
My flame was out
You entered in I look around
I feel the same as before
I'm on the ground
I'm dreaming away, but you know
I would trade all of
My daydreams for
Some wings
A sparrow sings The thrill was gone
But like the summer
The spring
Will bring the dawn
And I'll be singing your song
For a wondrous new change is
Taking me up to heaven [Chorus]
Your sweet love
Brighter than light
Streaking like a star ship
Your sweet love
Brightens the night
Gleaming down on our ship
Your sweet love
Making me realize
That heaven is right
Here in your eyes I look around
It's not the same as before
I'm on the ground
But now I'm singing your song
For this wondrous new change
Is taking me up to heaven [Chorus] And when I thought
My flame was out
You entered in I thank the stars
But you know as often
I thank the things you are
And all I offer
Just longs for that wondrous
New change
That's taking me up to heaven [Chorus: x2] I found my lucky star

Was gleaming nightly
Your love in starlight
Screaming 'round the bend
