Don't Make Me Live Without You

No Mercy

Live without you, I don't know what I would do
If you ever left me, if I ever lost you
This heart of mine would be dying
Shadows would shine out the sunIt would be a whole dark world
Without your love beside me
And how do I survive if I don't have you here
Here in my lifeMake me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make me live without you
And I'd never make itDon't, don't, don't make me live without you
Live without you
Maybe I need you too much
Never needed anything the way I need your touchIf you ever go, I'll go crazy
Take away all that I own
Take the very air that I breathe
My very heart and soulBut baby
Don't take your love from me
'Cause if I don't have you here
I don't have a thingMake me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make me live without you
And I'd never make itDon't, don't, don't make me live without you
Live without you, live without you
I need you here in my arms
As long as I live, as long as I breatheI need you here, beside meMake me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make live without you
And I'd never make itDon't, don't, don't make me live without you
