

Pickin' Up Strangers

[Johnny Lee](#)

Advisory - the following lyrics contain explicit language:

Picking up strangers, let me tell you about the dangers
You never know what they're out to get from you
You never know what they're gonna try to doPicking up strangers, let me tell you about the dangers
Some are just common thieves they say
Next thing you know one'll steal your heart awaySometimes this old life, it seems like highway
And it keeps rolling on and on
And on that highway you meet a lot of strangers
You pass a lot of dangers on your way homePicking up strangers, let me tell you about the dangers
If you don't like taking chances then
You better keep moving on my friendPicking up strangers, let me tell you about the dangers
Some are just common thieves they say
Next thing you know one'll steal your heart away(Picking up strangers)
Let me tell you about the dangers
You never know what they're out to get from you
You never know what they're gonna try to doPicking up strangers, let me tell you about the dangers
Some are just common thieves they say
Next thing you know one will steal your heart away(Picking up strangers)
Let me tell you about the dangers
You never know what they're out to get from you
You never know what they're
