

Who Am I to Say

Bigwig

I know what your thinking responsibility scares you to death. We'll this is the last time your ever gonna meet this mess again. Why don't we talk about it I don't wanna fight about it. Hey who am I to say well I think you're acting a little out of line. Hey what you gonna do when none of your friends will come back to you. Some people say that life's a bitch but I'm not one of those. It's what you make of it what you make of the path you choose. Why don't we talk about it I don't wanna fight about it. Hey who am I to say well I think you're acting a little out of line. Hey what you gonna do when none of your friends will come back to you. Hey it's a beautiful day now go enjoy it while the time is right.
