Intro: Yo mana you ready man, you're on in 5 minutes dude, get your stuff get your DJ and go kill itVerse I

I'm like blow

Step out on the stage like I'm infamous

Sound of a thousand kids screaming all into it

Like you no my name? Or even know my songs (What!!) Adlibs

They even no the lyrics to chant and sing along (uh huh)

It's like eh yo, He got that style

I'm like yeah yall, it's going down

Emceeing with freedom I'm seeing

Kid's freaking the feeling of reaping the seeds and I'm speaking

And I like that, I'm a still rap

I won't come fake styling like ye plastic gats

If you didn't know I spit the syllables

Were bringing you Manafest style live at the rodeo, radio, video, stereo here we goHook:

I've traveled all over the globe

What's under ye nose

Rip the shows if it's sunny or snows

Sell it to the rich feed it to the poor and you know

Its Kodak moments up live in stereoRodeo, Radio, Video, StereoVerse II

Stage dive off a lyrical high without the red eyes

Spiritual miracle signs through the man I

Serve with the most respect, I don't boast to get

6 zero check's survival of the fittest

People diss ye, people like ye

Battle freestyle you. Who's wiser? You a rhymer?

Hope ye have your lyrical chops top notch

Before you get sling shot off the mic and cut

It's a cold game pick up ye flow man

You better have skills plus an ill business plan

Get thick skin or gain a lot of weight

This is hip hop/ rock'n roll rodeo let's go!!!!Verse III

Big crowds to small crowds, any crowd

We go town to town, bust many styles

People smiling all across the island

Kick freestyle's till yall buck wilding

My jeans is still sagging my face soaked sweating

Before the show I'm in the bathroom resting

My own private seat I peep a magazine

Think about how I'm a emcee for his majesty

I want a freak yall take ye so high
I want freedom in ye life at all times
We gonna rock from now and forever
Are yall ready? (YEAH) well than bring it
