

Sarah's Radio Broadcast

Echo Orbiter

She wears denim low cut jeans and listens to brit-pop
Fashionable scarves and hats despite whether it's cold

Says she never wants to get old
And cut her hair short
Sarah keeps her life to herself

Lives vicariously through the BBC
Writes out broadcast play lists that sort out her moods

She vowed to stay single when she lost her high school mate
And drove as far away as the gas in her car would take her

She always saw herself in 80's films
Like 'St. Elmo's Fire'
Now Sarah keeps her life to herself

Lives vicariously through the BBC
Writes out broadcast play lists that suit her moods
Said one day her voice would fill the airwaves
And bring Slowdive to people lost in life
