

# Skulls

[RÃ¶yksopp](#)

If you want to ride with us tonight  
If you want to ride with us tonight  
If you want to ride with us tonight

We will be the hands that lift you up and  
We will be the hands that hold you high  
We will make you say our name forever  
We will make you want another try

If you wanna ride skulls

If you want to ride with us tonight  
If you want to ride with us tonight

We will be the life you always wanted  
We will be desire in your blood  
We will be the answer you desire  
We will be salvation in the flood

We will be the hands that make you wonder  
We will be the hands that strike you down  
We will make you scream our name forever  
We will make you go another round

If you wanna ride
