

Second Best (demo)

Barenaked Ladies

[Verse 1] Everything's a lie
We're all gonna die
Before we say goodbye, let's attack
[Verse 2] I admit it's bleak
But I give it a week
Until our friends the meek give it back
[Chorus] Is it true? Well it's true enough I guess
It's good to see you in this wilderness
[Verse 3] What's left of you that's real
A mutated ideal
With limited appeal, I suggest
[Verse 4] There's a sale on body parts

You're filling up your cart
Is that still your own heart?
Meet that chest.
[Chorus] Is it you? Well it's you enough I guess
You're a statue of Los Angeles
Is it true, yes it's true enough I guess
Sometimes it's better to be second best
Second best (x7)
[Verse 5] Perhaps it's just as well
That I still look like hell
At least the world can tell us apart
[Chorus] Is it true? Yes it's true enough I guess
Morning often finds me unimpressed
Is it true, yes it's true enough I guess
Sometimes it's better to be second best
Second best (x15)
