

First Punch

Nothing More

Another day stuck in repeat
Another someone judging me
Another hour I hold it in
Another time I force a grin
Another god who doesn't speak
Another leader that's a thief
Another day without a voice
Another day without a choice
I'll hold it in, Forget it, now
I'll throw the first punch
Because I've kept my mouth shut
For far too long, Enough's enough
And you say I'm wrong, but it feels right
And it's about damn time,
It's been too long
Enough's enough
Another time that I get burned
Another way that I've been hurt
Another year too little pay
Another person in my way
Another lover says goodbye
Another lack of reasons why
Another day I'll let it slide
Another way you try to change my life
Right between the eyes, Forget it
Right between the eyes, Forget It
