Close to You

JLS

London, Paris, Tokyo
Thinking of you where ever I go
And I close my eyes
Your by my side
A thousand miles can't keep us apart
Your tender words serenade my heart
And you keep me smiling
Perfect timing

I wish that you were here with me tonight

[chorus]
See I've travelled all around the world, now
And I've seen so many beautiful girls now (girls now)
But some how, no-one ever comes close to you
You know I've been to many different places
And I've seen so many pretty faces (faces)
But baby, no-one ever comes close to you
Close to you
Close to you

Planes and trains through sun and rain
Another hotel, another day breaks
And I'm on my way
I called to say

I wish that you were here with me tonight

[chorus]

And it feels like you are always with me on these long nights
In another lonely city you are right here, right now
Cuz' in my mind I never left at all
Never left all

[chorus X2]
