

Drug You

Half Moon Run

Take to relieve it
All your wishes come true
Take to believe it
All your wishes come true
I'm still a head full of hate
I'm still a head full of pride
Is it all that you need
When it's all that you got
Is it all that you need?
Cause it's all that I want
When it's all that you need
Cause it's all that you got
And it's all that you want
Then it's all that I'm not
