

Easy Tiger

Kids in Glass Houses

Leader board, who's keeping score?
you've got it all and you want more
so put your money where your mouth is
money where your mouth is
Pretty boy, who's keeping score?
you've got it all and you want more
When I said goodbye to you
I didn't think that we'd make it through
put your money where your mouth is
money where your mouth is
When I open up to you
you only tell me that you like the view
do do do...
do you know where to go
in the event of an emergency?
do do do...
you know where to go
in the event of an emergency?
eloquent and self assured
an artist's grasp of insecure
you put your money where your mouth is
money where your mouth is
I'm getting bored, I'm getting bored
of talking straight into the wall
when I said goodbye to you
I didn't think that we'd make it through
put your money where your mouth is
money where your mouth is
when I open up to you
you only tell me that you like the view
do do do...
do you know where to go
in the event of an emergency?
do do do...
do you know where to go
in the event of an emergency?
you're so disgusting
you're my hero
you look just like trouble
you're my hero
do do do...
do you know where to go?
so dance the dance we used to dance
when you cared less
about the things
that don't matter at all to anyone
that I'd open my door to
