

# Desperanto (a Song for Europe?)

## Skyclad

This is our song for Europe,  
I thought we saw the borders fall?  
Guerre sans Frontiers -  
And it seems nothing changed here at all.They're building a Tower of Babel in Brussels -  
It's called the Euromisery,  
And once we're inside they'll take us for a ride.Placing life and death decisions in the hands of politicians,  
Poltroons playing judge and jury - like alcoholics in a brewery.This is our anthem of nations,  
Another treaty signed in vain.  
It's a knockout! -  
Hope falls to the canvas again.It's an uncommon market - we're all Eurosexual,  
I want an E.C. lay, and when I'm inside she'll take me for a ride.Passing laws on moral issues -  
Sticky fingers holding tissues.  
Pyromaniacs with fire who light the fuse and then retire.This is our song for Europe,  
I thought we saw the borders fall?  
Guerre sans Frontiers -  
And it seems nothing changed here at all.A well cultured vulture feathers his nest,  
It's a chalet near Aix-en-Provence,  
The Porche he drives has been paid for with lives.Starve the pure and feed corruption,  
Walk the path to self destruction,  
Open old wounds - turn them septic,  
Save us all from Euro-sceptics.This is our anthem of nations,  
Another treaty signed in vain.  
It's a knockout! -  
Hope falls to the canvas again.
