

# I Really Love You

George Harrison

Yeah, you, I really, really love you  
Nobody else will do  
That's why I love you  
That's why, why, why Yeah, you, I really, really want you  
Nobody else will do  
That's why I love you  
That's why, why, why Well, babe, you know I love you so  
I'd pay the world if you could know  
And when I see, you're comin' down the street  
My heart skips a beat You, I really, really need you  
But yet, you play me for a fool  
Why do you do me like you do, do, do?  
Yeah Well babe, you know, I love you so  
I'd pay the world if you could know  
But when I see, you're comin' down the street  
My heart skips a beat You, I really, really need you  
But yet, you play me for a fool  
Why do you do me like you do?  
Why do you do me like you do?  
Why, why?
