

Golden Earth Girl

Paul McCartney

Golden earth girl, female animal
Sings to the wind, resting at sunset
In a mossy nest sensing moonlight in the air
(Moonlight in the air) Good clear water friend of wilderness
Sees in the pool her own reflection
In another world someone over there is counting Fish in a sunbeam
In eggshell seas
Fish in a sunbeam
Eggshell finish Natures lover climbs the primrose hill
Smiles at the sky watching the sunset
From a mossy nest as she falls asleep shes counting
