

# Golden Earth Girl

Paul McCartney

Golden earth girl, female animal  
Sings to the wind, resting at sunset  
In a mossy nest sensing moonlight in the air  
(Moonlight in the air)Good clear water friend of wilderness  
Sees in the pool her own reflection  
In another world someone over there is counting  
In eggshell seas  
Fish in a sunbeam  
Eggshell finishNatures lover climbs the primrose hill  
Smiles at the sky watching the sunset  
From a mossy nest as she falls asleep shes counting
