

Back 4 U

Jurassic 5

Check this out, real quick
I don't know if everybody know us personally as individuals
So what I want to do right know is
Is I want to take this timeout just to introduce everybody
So, let me just introduce everybody
I need from the people up top
From the people on the bottom
And the people in the back on both sides to give it up when I say
When the music is the soul
(So, what I want to do right now)
Is I just want to go back a little bit with y'all, Check this out
(And the soul is the music)
Yo, dressed in indigenous garb, sittin' abroad
The words that I use to be awed, people applaud
Now, watch how the brother adapt, fill in the gaps, perhaps
I play the block until the curb collapse
Now, check the method and put the message on record
Promote the effort and change the neighborhood preference
And keep 'em guessin' from the old to the adolescent
It's J5 and it ain't no half steppin'
The word play we display
Can only convey the vibe when they DJ
Colonial rep but far from the emcees
Feel sorry for those who bystand innocently
The menace in me divides men's courage in half
I murdered my staff, demolished every nerd in my path
The verbal giraffe, which have a overdue day job
We do play live, ask the people who they flock, the crew J5
We ride right into the night, words that we write
We're calm then a settle your site, come to the light
The word play, we display, kept us movin' from Tokyo to L.A.
Catch the feelin' as we move on
Follow the groove and steadily soothe
Got you all comin' in two, follow the crew
No mean thing 'cause we tied like shoe strings
When we sing you hear buzz like bee stings
Thank you now, very much, thank you
This is a, a, very historical moment for us as Jurassic 5 man, for real man
I feel like, a, you know, we have some serious support out here

You know we bring this back for you
So you know we bring this back for you
So you know we, know we, know we, know we, know we
So you know we, bring this back for you
Yeah, what, yeah, when we play you walk this way
We walk in faith, I hope you feelin' great
We came here tonight just to celebrate
Put ya hands up high you know we're rockin' the place
If you came here to hate, you came way to late
Jurassic emcees and came to set shit straight
Originality, check the way we originate
Style and communicate, check the way we demonstrate
Countdown three, two, one
Some rappers, a speak the real and I can see through some
I focus my sound, I never sellin' surplus pounds
I'm workin' to smash and drown all you circus clowns
You try to dis and get your limbs crushed like ants eggs
Some are fated where my tims touch my pants legs
We indestructible plus we's magnificent kings
Beat over book by overlooking insignificant things
That bullshit that you bring
Pass, pass, pass, you know we, know we, we, pass, pass, pass
You know we bring this back for you
So you can know we bring this back for you
So you can know we bring this back for you
So you can know we bring this back for you
So you can know we, know we, know we, know we
You can know we, know we, know we, know we
Know we, know we, know we, know we, know we
