for demons you will become a bloodless shadow.)Woe, pain, blood lead usNow that we end up with fire  
Some strident curses come from higherWoe, pain, blood lead usWe are the nights' atrocious sons  
We come from strange locus named  
Neverland  
Atrocious demons' feed you will become  
A woeful shadow without bloodCHORUS  
Show me the path to show you the land  
Where grimy war & pain have just begun  
Oh, you strain, oh, you pain  
I am thine and thou art mineNow that the order sounds cease-fire  
Some warlike voices sound like choirWoe, pain, blood lead usAnd tear the lucid and silky veil of my  
dream  
And walk on gloomy and trodden path  
and kill  
My misty brain, lord, please reign  
Lord please reign and spit the poison in  
my veinCHORUSI am thine and thou art mine
