Country

Pete Yorn

baby i dont know
what i think of us
wont be here tomorrow
i get so mixed upit's a shame that we're not living in the country
a place that i once seen before
in a book youve always loved but never showed me
you know i never lost beforebaby i dont mind
where im going to
love that asks for nothing
love that we never knewin the days when we were living in the city
it seemed that we were talking more
i can never love you like the way you love me
and these are things i cant ignoreyou know i never lost beforewe give it up to a world that was never true
it was always me and youbaby i can tell
it's not coming back
wont be here tomorrow
i know we'll be fine with thatin the days when we were living we were happy
the thing that we were waiting for
from a book youve always loved but never showed me
these are things I cant ignore
you know i never lost before
you know i never lost before
you know i never wanted it moreyou and i were 2 of a kind, i hate to say it but we'll never relate... you and i were 2 of a kind, you made me smile....
