You Drive Me Crazy

Tok Tok Tok

You drive me crazy when you look my way
Then you amaze me, amaze me every way
you make me lazy like the month of may
i get so hazy when with you I lay
You can't but crave me, want me every day
Your my whole, when i fall

I was so lonely when you came along
But then you saved me, why'd i felt was gone
My one and only baby your the one
And now you know me, its for you i long
And now you own me I'm your tag along
Your my whole, when i fall

Right then from the very start you were in my heart
I long and i yearn for you, you know love is true
I knew that the sun would shine if i made you mine
I yearn and i crave for you tell me what to do

Like a soft breeze
In the old trees
when your with me
i get dizzy yea.

Say that you miss me, whisper in my ear
Come to and kiss me every time your near
When i fall daily, its your voice i hear
You came right to me and dried away my tears
When your around me there's nothing to fear
Your my whole, when i fall

(Vocal solo until the end of the song)

Crazyyyy
