I Am for Real

Headstrong

Advisory - the following lyrics contain explicit language:

just like a bolt of chewing gum come from out of the blue
you said you wouldn't come outside until the bum had passed through
i try to be a better man i try to stay in shape
i try to do my part to keep apart the church and state amagalmate
you don't know what you're doing to me
upon the mantle of my sink, ants die silently as
nobody knows how the story really goes
if you turn around and sniff you'll smell the scoop under your nose
my disposable me is feeling lonely today
you know that soon enough my body will be wasting away
but there is something that i'm wondering before i turn to shit
it's nothing really howdya like my tortured artist bit?you're making a huge mistake mr. president
you're making a huge mistake mr. policeman
you're making a huge mistake mr. referee
you've making a huge mistake mr. machoo kinnalook up, look down, look out man, i'm coming for you
you know my name you don't remember the game though
you keep on talking but it all stays the same so
michael since you left me i ain't got faith no more
we'll get high on the ride and we'll see what all the screaming is for
you are not real i am for real what the hell are you two doing here what's the fucking deal, huh?
you're not alive i am alive i had to wait for months and months for my prescription to arrive
and are you feeling any better or do you still feel the shame?
you will become something or something else or stay the same
and the people down the stairs have been trading shots all night
is this target practice or is this a real bloody fight man?you're making a huge mistake mr. monolith
