

Evergreen

Jun Irie

I've been on the run
Slept under the sun
Feeding off the clouds and eating Them like ice cream
I've been all around
Never left this town
Blisters on my eyelids like it's Spring in paris
I've seen everything, I've dreamt Every dream
I am every human
Oh I'm not even finished
Look how I go
Impeccable flow
Wind in my face it hardly ever Rains
Always on top
I'm coming up
I'm everything and I am everything
I know it all don't know a thing
I am changing, still the same
I'm every color I'm every color
I am evergreen
I've been on the side
Always stayed ahead
I'm so very fast give me a Speeding ticket
Me you cannot teach
I just wanna know
I've been tryin to stand but I Will never grow
I've seen everything, I've dreamt Every dream
I am every human
No I'm not even finished
Look how I go
Impeccable flow

Wind in my face it hardly ever Rains
Always on top
I'm coming up
I'm everything and I am everything
I know it all don't know a thing
I am changing, still the same
I'm every color I'm every color
I am evergreen

The truth is stranger than fiction

When you're a walking contradiction

When you're evergreen

You're always looking in

You're the first one left

But you're back again

Don't be afraid to ask

But don't ask again

We'll forever last when you're Evergreen

Look how I go

Impeccable flow

Wind in my face it hardly ever Rains

Always on top

I'm coming up

I'm everything and I am everything

I know it all don't know a thing

I am changing, still the same

I'm every color,I'm every color

I'm every color

I'm every color(color)

I am evergreen

Yea I am evergreen

I am evergreen

I am evergreen
