Love Is Free

Sheryl Crow

One, two

One, two, threeShe got a shack floating down the Pontchartrain With the water rolling in

We gotta swim toward where the levees start to crackAnother day, another dollar down the drain You go to town no one's around

'Cause if you drown there ain't no hope for coming backIt ain't no big thing if you lose your faith

They kinda like to keep you in your place

You never know what might be coming your wayOh everybody, devil take your money Money's got no hold on me

'Cause oh, oh, everybody's making love

'Cause love is freeYou go to church and pray to God for no more rain

A Cadillac, a paper sack, well, hey there Jack

You want some bourbon for the pain? Hey, Tambourine, ain't no rhythm on the street With the voodoo what do you do

When the radio just plays on anyway? Those crazy fingers in your jelly jar They'll jack your money while you sleep in your car

They got the karma they ain't getting too farOh everybody, devil take your money

My money's got no hold on me

Oh, oh, everybody's making love

'Cause love is freeEverybody come together

(Love is free)

Everybody come together

(Love is free)

Everybody come together

(Love is free)

Everybody come together

(Love is free)Oh, everybody, devil take your money

But money's got no hold on me

Oh, oh, everybody's making love

'Cause love is freeOh, everybody, devil take your money

But money's got no hold on me

Oh, oh, everybody's making love

'Cause love is free

Love is free, yeah, love is free
