

36 Degrees (Live at Wembley Arena, London 2004)

Placebo

I see light
And it hurts
As silver turns to blue
Waxing with the candlelight
And burning just for you
Allocate your sentiment
Stick it in a box
I've never been this paranoid
But I'm still breathing
Someone tried to do me ache
Someone tried to do me ache
Someone tried to do me ache (it's what I'm afraid of)
Someone tried to do me ache (it's what I'm afraid of) And these eyes
Are born blind
Lost without a clue
Thought I was getting carat gold
And all I got was you
Stuck inside the circumstance
A healthy dose of luck
I've always been an introvert
As a kid I was beaten
Someone tried to do me ache
Someone tried to do me ache
Someone tried to do me ache (it's what I'm afraid of)
Someone tried to do me ache (it's what I'm afraid of) 4 7 2 3 9 8 5
I've gotta breathe to stay alive
And 1 4 2 9 7 8
Feels like I'm gonna suffocate
14 16 22
The skin that turns to blister blue
Shoulders toes and knees
I'm 36 degrees
Shoulders toes and knees
I'm 36 degrees
Shoulders toes and knees
I'm 36 degrees
Shoulders toes and knees
I'm 36 degrees
