

Make It Bump

Far East Movement

(Shut up x4)
Ayyy, girl, what's your name?
My name? Glad I came
Your frame is so insane
Got me numb like Novocain
Damn girl, you're a freak
I'm a beast seven days a week
Can I ask for that math?
I mean your number
I mean some ass
You wanna cut them, where's your girls
Got a king size at the crib
Introduce you to my world
It is what it is
You can be my superstar
Put your hands up in this bitch
We gonna wild all out before they kick us out
It is what it is
Wanna turn you up
Make you feel that base
Just be that dirty love
Make you vibrate
Make your spine ache
It is that killer love
I just can't get enough
(shut up)
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!
Hey, boy kanji sasete

Motto take me all over your world
So you can keep your mouth shut
Put - put - put your hands up
Put - put - put your hands up
Make it bump bump bump!
Let's get it crackin'
You know what's happenin'
So why you hummin' in my ear with all this chattin'?
'Cause I'm not here to talk
I get down and let my fingers walk
So shut your lip and take a sip before this needle drop
You wanna cut them - where's your girl?
Got a king size at the crib
Introduce you to my world
It is what it is
You can be my superstar
Put your hands up in this bitch
We gonna wild all out before they kick us out

It is what it is
Wanna turn you up
Make you feel that base
Just be that dirty love
Make you vibrate
Make your spine ache
It is that killer love
I just can't get enough
(shut up)
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!

Hey, boy kanji sasete
Motto take me all over your world
So you can keep your mouth shut
Put - put - put your hands up
Put - put - put your hands up

Make it bump bump bump!
Put your hands up (x4)
Wanna turn you up
Make you feel that base
Just be that dirty love
Make you vibrate
Make your spine ache
It is that killer love
I just can't get enough
(shut up)
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!
Make it bump
Make it bump
Make it - make it bump
Make it bump
Make it bump
Make it - make it - SHUT UP!!
Hey, boy kanji sasete
Motto take me all over your world
So you can keep your mouth shut
Put - put - put your hands up
Put - put - put your hands up
Make it bump bump bump!
(shut up) x4
