

Maybe

Brainstorm

My body, My hand
My heaven, My land
My guardian angel is mine You say...
My dreams, My head
My sex, My bed
And it's my Corona with lime And then I say ..
Maybe we could divide it in two
Maybe my animals live in Your Zoo You say..
My hate, My frown
My kingdom, My crown
My palace and court is mine You say..
My lights, My show
My years to grow
The time that I spend is fine But then I say ..
Maybe we could divide it in two
Maybe my animals live in Your Zoo
Maybe I'm in love with You.... But You say...
My coat, My hat
My bones, My fat
My zipper is shut by me You say..
My Skin, My blood
My devil, My God
My freedom is what You see But then I say
Maybe we could divide it in two
Maybe my animals live in Your Zoo
Maybe I'm in love with You.... My beginning, My end
My nuclear bomb to pretend.....
