

Krank (Kaptn' K. Mix By Sascha K.)

KMFDM

Hit rock-bottom
End of the line
Outhouse of life
Where the sun don't shine
Down and out
Straddling demise
Get a grip on yourself
Pick up and rise Top of the world
Designed to destruct
With wings unfurled
Sky-high and fucked
Out of the true
Crash and burn or slow down and subdue
Live and learn Achtung! Here we come
With another motherfucking dirty bomb
Krank! - Krank it to 11
Kein Mehrheit Fr Die Mitleid 24/7
Once again rings true what we always knew
KMFDM is the drug for you Freedom is a loaded shotgun
