The Days That We Die

Loudon Wainwright III

Loudon:You'll never change, neither will I, we'lll stay the same till the days that we die.
I'll never win, neither will you, so what in this world are we gonna do,
People hate change, they make a fuss, they stay the same, people like us,
Folks wanna win, when they can choose, but more important than that, folks don't wanna loseRufus:
When did it start how did it go wrong
why in this world can't we get along
Each victory should be good news,
But when i have to win you're the one that I loseLoudon
I wanna chage but i don't know how
we need to change though, I know that now
Its sad but its true and I have to say, that the days that we die aren't that far away
