

# Fior di Latte

## Phoenix

The picture on your phone  
Could do so much wrong  
But we'll take it don't worry  
And I know it already Sleeping all alone  
I been craving too long  
Keep it quiet, go steady  
Let's rip it all to confetti A little bit of disrespect could be  
Another way to break the ordinary  
It's all a blur as far as I can see  
No more begging already  
Would you allow me to stay?  
On  
We're meant to get it on  
We're meant to get it on  
We're meant to get it on Fior di latte, fior di latte  
Throw your weight around behind me  
Fior di latte, fior di latte  
Don't think about it, trigger me happy All other acts are for idiots  
Come on come on come and provide it  
Let's be quiet and wrap it up  
Give me your fior di latte My story's too long  
Not that exciting, a mourning city  
But there's no seasons in LA  
Oh no! No you're not on your own  
Just a minute alone would do  
A little bit of disrespect could be  
Another way to break the ordinary  
It's all too fancy, no it's not for me  
No more bragging already  
Till you got something to say On  
We're meant to get it on  
We're meant to get it on  
We're meant to get it on Fior di latte, fior di latte  
Throw your weight around behind me  
Fior di latte, fior di latte  
Don't think about it, trigger me happy All other acts are for idiots  
Come on come on come and provide it  
Let's be quiet and wrap it up  
Give me your fior di latte On

We're meant to get it on  
We're meant to get it on  
We're meant to get it on
