Guess What

JFA

I am Sally the gossip queen
I lie about everything that I've seen
I only see what I want to see
so don't deny what you hear from me
Guess What guess who fucked up
guess who went to bed
guess who loves you
guess who hated your guts
guess who adores you
Nothing can escape my eyes
you can't fool me with your lies
there's not a story I haven't heard
the latest scoop I know every word
Isn't it true
that you
fucked
you know who
