You've Changed

Kimberley Locke

You know something's happened
It ain't the sameStarted out as friends
No doubt we'd be to the very end
One thing lead to another
Then we fell in love with each other
Oh, how beautiful things were
Between us back thenIt was so sweet
Use to send roses to my job
In the middle of the week
One thing lead to another
Now we hardly speak to each other
It's so strange, so strange(You've changed)
I miss the conversations
Miss the stimulations
Miss communicating(You've changed)
Miss the lovey-dovey
Feel the way you hugged me
Know you still love me
So don't change
(Don't change)
No, no, noUse to make love for hours
Turn right around and take long hot showers
But now we just go through the motions
What's love if there ain't no emotion?
Just ain't the same, ain't the sameThe beautiful thing that we had
Use to be good, now it hurts me so bad
Now, when I look in your eyes
All I see is emptiness inside
You can't disguise, can't deny(You've changed)
I miss the conversations
Miss the stimulations
Miss communicating(You've changed)
Miss the lovey-dovey
Feel the way you hugged me
Know you still love me
So don't change
(Don't change)
No, no, no, no(You've changed)
Used to go everywhere

Where the was one
There was always the other(You've changed)
Now you're out all night
Act like we ain't even together(You've changed)
Use to call every hour on the hour
Didn't need no excuseIf you want to get it right, keep it tight
Make it alright
Baby, please don't changeI miss the conversations
Miss the stimulations
Miss communicating(You've changed)
Miss the lovey-dovey
Feel the way you hugged me(You've changed)
I miss the conversations
Miss the stimulations
Miss communicating(You've changed)
Miss the lovey-dovey
Feel the way you hugged me
Know you still love me
So don't change
(Don't change)
No, no, no
