

Running to You

The Cars

I'm comin' around
I want you to come
I'm comin' around
Just for the funHavin' a real time
Just taking what's not mine
And I'm doin' what I want to doThat's running to you
Running to you
That's running to you
That's running to you
(Running to you)You're lookin' for someone
Maniacal shots
You're lookin' for someone
All over the topI'm havin' a real time
Just reading your headline
And I'm doin' just what I want to doThat's running to you
Running to you
(Running to you)
That's running to you
Running to youYou're hopin' for someone
That fits in the plan
You're hopin' for someone
Two in the handHavin' a real time
Just taking what's not mine
And I'm doin' what I like to doThat's running to you
Running to you
Running to you
(Running to you)
That's running to youAnd that's running to you
Running to you
(Running to you)Running to you
(Running, running, running to you)
Running to youRunning to you
Running to you
(Running to you, running to you)Running to you
(I like running to you)
Running to you
(Running, running, running to you)
