

# Pump Action

## Anti-Nowhere League

There's gangsters in the bars  
Honest John he's ringing cars  
Triads go to war  
Fighting for a strip-tease bar Believe every word I say  
Today is just a perfect day  
I just want to be  
Burning up a motorway Gypsy's in the ring  
Betting for a fist of bling  
Punks are on the street  
Chocking on the city heat Yardies dealing crack  
Cops are fighting in the trap  
The Angels never die  
On Iron Horses made to fly
