## Carry the Zero

## **Built to Spill**

I'm not knocking Your want to carry that home Took it with you When you moved and got it brokeFound the pieces We counted them all alone Didn't add up Forgot to carry a zeroI can't be your Apologist very long I'm surprised that You'd want to carry that onCount your blemishes You can't, they're all gone I can't see your response Putting them back onLike they're waiting for your guard to fall So they can see it all and you're so Occupied with what other persons are Occupied with and vice versaAnd you've become What you thought was dumb A fraction of the sum Yeah, you've become Yeah, you have become A fraction of the sum The middle and the front And now it's coming back Hasn't it come too far?I was trying to help But I guess I pushed too hard Now we can't even touch it Afraid it'll fall apart
