

# Too Late

## Andrew Duhon

Early morning late afternoon  
makin good time now  
maybe I won't be too late

Well I walk on walk on  
until I was about 5 miles out  
A young man drove me the rest of the way

I gotta think I am getting somewhere now  
Oh maybe its just my way  
Gotta find those things I left behind  
just like it was yesterday  
I gotta a dollar 25 saved

That rustle stops riding at my feet  
I'll be on my way  
Baby I won't be so late

Oh I had a love once  
We had a home but I couldn't leave well enough alone  
now i used fiery right to burn those bridges down  
the rivers don't wine the same way now  
wish I could drop her a line  
rewind some time  
but she is some where in love now

But I got a dollar 25 saved  
this bus will stopped right at my feet  
I'll be on my way  
baby I won't be too late

mmmmmm

Well I'm all ragged now  
tired in some old forgotten town now  
like I've always been that way

took me this jangle coffee cup  
I hold in my hand to realize that I ma always begging for change  
but i got a dollar 25 saved

This bus will stop right at my feet  
and I'll be on my way  
baby I wont be too late

i got a dollar 25 save  
this bus will stop right at my feet  
I'll be on my way  
baby I wont be too
