Shoot for the Moon

Poco

I hear tell it's far away
And no one goes there now
If we set our sights you know
We'll get there somehowCome on darlin' let's
Take our chances we'll
Take them all the way and
Shoot for the moon
We'll shoot for the moonRemember nights you blinked your eyes
And the moon winked back at you
Now it was not so distant then
If your aim was trueSo come on darlin' let's
Take our chances we'll
Take them all the way and
Shoot for the moon
We'll shoot for the moon
Let's shoot for the moonLet's throw our dreams together
And seal it with a kiss
There is no way we can miss
We'll shoot for the moon
Shoot for the moonLet's shoot for the moon
We'll Shoot for the moonI hear tell it's far away
And no one goes there now
