Screw Me Up

The Fox Hunt

I left her sleeping in her bed
Now I'm not sure how
But stationed in the morning
The saturday night crowds
Forget about the things I said
I'm always telling lies
I told you I'd forget you
Now you're all that's on my mind
There's a train that keeps me up at night
If I don't take my pills
And I'd quit but now just ain't the time
And I don't have the will
Tired of feeling beaten down
Lonesome and wrong
Now nights I wished would never end
They all seem so damn long
So screw me up and leave me
A tattoo of your name
And tell all of your friends
That I'm no good anyway
It's no use looking around
I know you're on my mind to stay
Just screw me up and leave me
A tattoo of your name
I got a car but it's out of fuel
And me I'm out of cash
I'm almost out of cigarettes
These days they all go fast
And I've messed up one too many times
I'm just a bastard in your eyes
Come on girl I need a place to stay tonight
So screw me up and leave me
A tattoo of your name
And tell all of your friends
That I'm no good anyway
It's no use looking around
I know you're on my mind to stay
Just screw me up and leave me
A tattoo of your name

Just screw me up and leave me
A tattoo of your name
And tell all of your friends
That I'm no good anyway
It's no use looking around
I know you're on my mind to stay
Just screw me up and leave me
A tattoo of your name
